Summary

B.Tech Computer Science Engineering student with a strong foundation in Data Structures, Object-Oriented Programming, DBMS, and modern web technologies. Skilled in developing responsive full-stack web applications through academic and personal projects. Interested in contributing to innovative software solutions while continuously improving technical expertise.

Education

Galgotias University

B.Tech in Computer Science Engineering — CGPA: 8.44

Greater Noida, UP

2023 – 2027

Delhi Public School

Senior Secondary School Education — 74.6%

Kanpur, UP

2021 – 2022

Gautam Budh Balak Inter College

Secondary School Education — 75.4%

Greater Noida, UP

2019 – 2020

Skills

Technical Skills

Programming Languages: Java, SQL, Python, JavaScript

Core Concepts: Data Structures Algorithms, Operating Systems, DBMS

Tools & Technologies: MySQL, Git, GitHub, VS Code

Web Technologies: HTML, CSS, React.js

Soft Skills: Teamwork, Communication, Problem Solving

Projects

SkillBridge | *React.js, Spring Boot, MySQL*

Jan – Mar 2026

- Developed a full-stack platform for career discovery, skill exchange, and personalized learning.
- Built the application using React.js, Spring Boot, and MySQL, implementing career recommendations, peer skill matching, real-time chat, scheduling, and resource sharing.
- Designed a scalable and user-friendly platform that enables users to explore career opportunities, collaborate with peers, exchange skills, and enhance practical learning experiences.

AI-Based Stress Detection & Analysis System | *Python, Pandas, NumPy, PyTorch*

Oct – Dec 2025

- Developed a deep learning-based stress detection system using physiological signals including EDA, heart rate, temperature, and motion data from the WESAD dataset.
- Implemented data preprocessing, feature synchronization, and trained CNN, LSTM, and Hybrid CNN-LSTM models for accurate stress classification.
- Built a real-time dashboard to visualize stress predictions and model performance, gaining hands-on experience in deep learning, time-series analysis, and healthcare analytics.

Internship

Web Development Virtual Internship

Aug – Sep 2025

- Developed responsive and user-friendly web applications using modern web technologies.
- Built reusable frontend components and integrated RESTful APIs to enhance application functionality.
- Collaborated on debugging, testing, and optimizing web applications to improve performance and user experience.

Certificates

- **Java Foundation Certification** – Infosys Springboard Apr – Jun 2025
- **Data Engineering Virtual Internship** – AWS Academy Jan – Mar 2025
- **Web Development Certification** – EduSkills Sep – Dec 2025

Achievements

- Successfully completed multiple industry-recognized certifications and virtual internships in Java, Web Development, Data Engineering, Cloud Computing, and AI/ML through Infosys Springboard, EduSkills, AWS Academy, and Oracle Academy.
- Developed full-stack and AI-based applications, including **SkillBridge** and an **AI-Based Stress Detection & Analysis System**, demonstrating practical experience in React.js, Spring Boot, Python, Machine Learning, and Database Management.
