EXPERIENCE

AICTE – EDUSKILLS VIRTUAL INTERNSHIPS

APRIL' - SEPTEMBER' 2025

- Completed a Google-supported AI–ML virtual internship, gaining hands-on experience in Python, data preprocessing, and building foundational machine learning models.
- Completed a Web Development virtual internship, gaining practical experience in HTML, CSS, JavaScript, and building responsive, user-friendly web applications.

ACADEMIC / TECHNICAL EXPERIENCE

- Designed and implemented mini-projects applying Python and Java, fundamental data structures, and algorithmic logic to solve real-world problems.

TECHNICAL PROJECT WORK (SELF-DRIVEN)

- Built an interactive web prototype using responsive design, modular components, backend services, MySQL database integration, APIs, and Git/GitHub version control.

PROJECTS

MYNTRA CLONE (SHOPPING PLATFORM)

- Developed a full UI clone of the Myntra shopping platform—built a fully responsive front-end closely matching the original design, with product pages, dynamic components, MySQL-backed backend integration, and API functionality.

HEALTHCURE (HOSPITAL MANAGEMENT SYSTEM)

- Built a Hospital Management System on the GUVI platform featuring patient records, appointments, and doctor management with a MySQL backend, and maintained the project using GitHub.

YOUTUBE DOWNLOADER

- Developed a YouTube Downloader using Python, implementing video/audio extraction through API-based workflows, file processing logic, and a user-friendly interface for smooth downloading.
